Number 49

SAMUEL HAYNES DIES AFTER BRIEF ILLNESS.

Samuel Haynes, an honored and highly respected citizen of West Hickman, died at two o'clock Sunday morning, after an illness of only three days; his bowels being assigned as the cause of his demise.

Mr. Haynes was just past 69 years of age. He had resided in this vicinity for more than a quarter of a century, coming to Fulton county from near Ripley, Tenn. Some forty odd years ago, he was united in marriage with Miss Rumley, and the wife and four children survive him. The children are Mrs. Jno. Ryan, Mrs. Bob Woolster, Ewell and Lennie Haynes. All reside in Hickman except Lennie, whose home is in Arkansas. Deceased was a charter member of the West Hickman Baptist church and an honorable, upright gentleman. For many years he followed the carpenter's trade; in fact, was engaged on a job when the fatal illness overtook him.

Funeral services were held at two o'clock Sunday afternoon at the Baptist church, being conducted by Rev. J. B. Housley. Several hundred friends attended the service, many of whom were unable to get into the house. Burial followed at Brownie's cemetery.

In the death of Mr. Haynes Hickman loses a fine citizen; one of those stalwart, peaceful, quiet men, who form the bone and brawn of a nation's strength and nobly discharge the duties of citizenship.

Peace to his ashes.

\$43,000,000 RIVERS BILL PASSES SENATE.

The filibuster conducted by Republicans for a month against the rivers and harbors bill failed Monday afternoon when the Senate passed the waterway measure carrying appropriations for approximately \$43,000,000, by a vote of 36 to 32.

The eleventh hour efforts to postpone the bill with instructions to report out a lump sum, fixed at \$20,000,000 and the other at \$20,000,000, were voted down, the first by 37 to 33 and the second by 35 to 34. Senator Stone of Missouri, hurried into the chamber from a conference with a Cabinet official, in time to cast the deciding vote against recommitment.

The bill will now go to conference because the Senate provisions call for \$3,000,000 more to those authorized by the House. It is not expected that measure will be returned to the two Houses for final sanction until after the national convention.

NEW MAIL BOXES.

The department has furnished the Hickman postoffice with several new mail boxes, which will be placed at various sections of the town, for the convenience of those wishing to mail their letters without going to the postoffice. Two or three such boxes are used up until a few years ago, but were discontinued for this reason.

Bids will be received for the erection of the new boxes; posts for same to be set in concrete.

Mrs. J. C. Sexton and daughter, Kathryn, and Mrs. W. C. Neer and son, Clarence, left Sunday morning by Lee Line steamer for St. Louis. From there they go to St. Louis, Mo., to spend a month with home folks. They were accompanied to St. Louis by J. C. Sexton.

Paul Blakemore was here from Kennett, Mo., first of the week, visiting his parents, W. F. Blakemore and wife, and brother, Gene Blakemore.

A. E. Owen, wife and baby spent Sunday with his sister, Mrs. Cunningham, and brother, E. B. Owen, at Union City.

C. C. Humber and R. V. Putnam spent Sunday at Paducah.

BALL GAME FRIDAY TRUE TO PROPHECY.

The Fats and Leans staged comedy stunts last Friday at Athletic Park according to schedule, and the good crowd present were loud with their applause.

To game was called promptly at three o'clock by Umpire S. J. Dodds, and until the end of the game there was something doing all the time.

Among the shining lights (or those who had the nerve to stick it out even though it put them in the hospital) were Sid Hamby, Chauncey Reed, Sheriff Huddleston, Mitchell, Roseo Stone, Stahr, Roney, Alex Stone, Wright and Longnecker did not last long, their places being taken by substitutes. Roney and Alex Stone started the twirling and went along for several innings like veterans (and they are). Their support at times was brilliant, at other times bad almost to the point of indifference. Others tried their hands, and what few curves they used to have with varying degree of success, the Fats finally ended up with "Cherry Red," of the regular Hickman team, in the box.

Among the casualties who received first aid from the Red Cross nurses—Misses Rice, Binford and Barrett—were Roseo Stone, who must have had his fingers bitten when a fly ball went through his "dukes" and hit him in the face, Bailey Huddleston, who tried for the long distance slide, and Bob Reper.

The final score was 13 to 17 in favor of the thin ones. No effort was made to keep track of the errors made by the players on both sides. "It couldn't be did."

About \$15 was netted for the Hickman team, under whose auspices the game was staged.

Those who stayed away from the game missed at least one good laugh.

REVIVAL CLOSED SUNDAY. TWENTY PROFESSIONS.

The revival at the West Hickman Chapel closed Sunday. Rev. A. J. Spence, pastor, was assisted in this work by Rev. E. G. Hamlett, evangelist, and D. G. Stephenson, singer. It was a splendid revival, resulting in twenty professions and a number of reformations, besides a renewed interest in religious work. As a whole, the meeting was one of the best and most successful held here in many years.

A NEW DEPARTURE.

W. M. Smart, industrial agent of the N. C. & St. L. Ry. was here Friday and appointed the Courier as local representative of this road's co-operative real estate department, a new feature with the railroad people; one which, nevertheless, will doubtless prove profitable to the railroad and the community. In a nut-shell, the railroad will reach out in an effort to pull new citizens to any and all communities along its lines. Fulton county will receive its share of exploitation through the railroad company's advertising in journals and magazines of the north. Inquiries will be referred to the various local representatives, who happen to have listed the kind of land or a location suitable to the wants of the prospective purchaser; as Mr. Smart will have this information before him. If you want to sell your Fulton county farm, let us list it for you.

The Confederate Reunion at Birmingham last week elected Gen. George P. Harrison, of Alabama, commander-in-chief and decided to hold the Reunion next year at Washington City.

Lexie Rice and Marshall McDaniel have returned from Lexington where they have been attending school.

Construction work on a new \$14,000 railway station for Charleston will begin within sixty days.

SEASONABLE DISHES.

A pretty as well as a tasty dish to serve with lamb or roast of meat is celery relish.

Celery Relish.—Place half a box of gelatin in a cupful of water, heat a cupful of water and when the gelatin is soft add to it. While hot add the juice of two lemons and a half cupful of sugar. Let cool, then add a table-spoonful of fresh grated horseradish, a dash of cayenne and color a light green with vegetable coloring. When almost ready to set pour into a mold with a cupful of chopped celery. Set on ice to harden and cut in squares to serve. This may be served on lettuce with a salad dressing making a most attractive salad.

Manhattan Apples.—Core and pare six or eight apples, cook in a syrup made of a cupful and a half each of sugar and water, turning often until the apples are tender. A good way to add to the flavor of this dish is to cook the apple peelings in water to cover, strain and use that with the sugar for the syrup. If the apples have a red peeling it will make them a beautiful pink color. Have ready as many rounds of sponge cake as there are apples, brown in a little hot butter and on each place an apple, pour over the syrup and serve with whipped cream or simply with the apple syrup. If one likes, and the color cannot be obtained from the peelings, add a little currant jelly to the sauce for coloring.

Newport Whips.—Stand a glass of raspberry jelly in a warm place where it will soften to a thick syrup. Beat the whites of two eggs until foamy, add the jelly, then gradually pour in a cupful of thick cream, stir in a half cupful of powdered sugar and beat all together with a large wooden spoon or whip in a cream churn. Take off the froth as it rises and place in a sieve to strain. When no more froth appears arrange it in glasses, placing a spoonful of the froth on top of each. Serve ice cold. One may make this with jelly, egg and a little sugar without the cream, beating just the same. Then serve with whipped cream if so desired.

COTTON CONDITION IS
ESTIMATED AT 80.

Acreage planted to cotton in the cotton belt this year is estimated by The Commercial Appeal at 9.8 per cent over that of last year. This estimate is based upon reports from correspondents from all sections of the belt.

The condition of the crop as of average date of May 23, is estimated at 80 per cent of normal. This compares with an average of 80 per cent, the government estimate for May 25, last year.

The crop may be classed as good in the western belt, excellent in the central and poor in the eastern belt.

Dry weather in some sections and heavy rains in others have made the Texas crop late, but the crop is making good progress. There is a large acreage increase in all the trans-Mississippi States, as well as most central belt States, but the diversification idea has prevented a return to the one-crop system of 1914.

In the east a moderate acreage increase is shown, and dry weather has greatly interfered with stands in that section. Recent rains will do much to overcome this condition. A big decrease in the use of commercial fertilizers is reported, and that used is of inferior quality, owing to the absence of potash from its make up.

Cultivation, as a rule, is well up, although recent heavy rains west of the river especially in Texas and Louisiana have retarded farm work somewhat, and some fields are getting in the grass. However, the past week of favorable weather should have greatly improved this phase of the crop. Some scattering reports of boll weevil are heard, but to date their appearance is by no means general, even in the worst infested areas.

A condensed report from States is as follows:

ALABAMA—Crop is nearly all planted and is up to fairly good stands over probably 85 per cent of the State. Cool nights have retarded growth somewhat, but plant, while small, is healthy. Prevalence of boll weevil has prevented a large acreage increase. Heavy reduction in use of commercial fertilizers. Cultivation fairly well advanced and ground generally in good condition, but some fields in grass.

ARKANSAS—Planting is almost completed and the crop is coming to a good stand. Replanting has been rather less than the average. Although weather has been somewhat cool, the plant is quite generally strong and healthy. Ground well prepared and while there is some grass as a rule fields are well cultivated. Use of commercial fertilizers has been quite heavily decreased. Although more cotton is planted, diversified crops are still popular.

GEORGIA—The long drought has resulted in poor stands, but most correspondents think that recent rains will soon remedy this defect. Cultivation has been well advanced, owing to the dry weather, which afford opportunity for farm work. Plant that is up is generally quite healthy, but somewhat small. There has been a heavy reduction in the use of fertilizers and the quality of that used is poor.

LOUISIANA—Crop had a good start, but heavy rains of 10 days ago checked the advance and may result in considerable replanting. Stands fairly good, except on overflowed districts, where replanting is necessary on a large scale. Plant healthy and growing. Cultivation checked by heavy rains and some fields in grass, but present favorable weather should soon remedy this defect.

MISSISSIPPI—Planting is well advanced—almost completed—and stands are exceptionally good taking the State as a whole. Cultivation is well advanced, although recent heavy rains have caused some complaint of grass in the fields. Although the cotton acreage has been increased heavily, most planters are still growing sufficient feed crops for home consumption. In the delta the outlook is probably the most favorable in a decade. Few boll weevils have been seen so far. There is considerable reduction in the use of fertilizers in the hill section.

NORTH CAROLINA—Weather has been dry over most of the State and as a result stands are poor. Whether the recent rains

In Dodd's New Building on the Corner.

With entirely overcome this hand-crop remains to be seen. Cultivation well up, and where rotten is up the plant looks well. Some decrease in the amount of fertilizers used, and that used was of poor quality.

SOUTH CAROLINA—Owing to the long drought, stands are extremely poor. Most correspondents think recent rains will bring the cotton up, but a few believe considerable seed may have rotted in the ground. Cultivation well up. The small amount of cotton that is up is looking healthy. Fertilizers used are of poor quality.

TEXAS—Dry weather in the south and heavy rains in other sections of the State have retarded development, and the crop is late, but planting is going forward rapidly and the crop is coming to a good stand. Some fields are in the grass as a result of rains, but labor is plentiful and with present weather conditions cultivation should soon be well up. Some boll weevil reported around Dublin, with signs of their coming to other sections.

BEAUTIFUL CORFU

The Villa Achilleion.

ONLY a little over a decade ago the beautiful and picturesque Elisabeth, empress of Austria, built upon that island, Corfu, the Villa Achilleion. And here just to the west of western Greece, that restless royal I was wont to "steal awhile away" in the irksome royal etiquette of the Austrian court and "invite her." Then a wretched anarchist shot her in Switzerland and presently the latter acquired the delightful Villa Achilleion as a southern residence.

Now that the allies, who have occupied Corfu, have decided to leave, the Servian army the charming little island is again in the public eye, writes P. Maude Smith.

If you love color, go to Corfu.

Corfu, like all Greece, is simply bathed in light.

Under certain conditions the mountains are blue, deepening to rose and crimson, the fields violet, with salmon pink purple, ochre and cinnamon, all melting into each other. Over all is a sky miraculously blue."

Though separated only by a strait from Greece, visitors usually come across the Adriatic from Brindisi, embarking in the evening and seeing the island next morning. Others come down from Flume and Trieste. One may simply stop as long as the ship is discharging and taking on cargo, galloping over a part of the ground, or one may "stay over," which is, of course, the better plan.

In fact, most of us, after once getting ashore at these lovely eastern ports, vow never to leave, thanks to the confusing noise and insolence the boatmen who convey passengers and luggage ashore.

The Island and the City.

Kerkyra is the capital of its make island. Very irregularly, it covers 277 square miles and has something like 115,000 inhabitants over 25,000 of this population in the city of Corfu and its suburbs. The wide and spacious harbor on the east side, next Greece, is lively with shipping; they export olive oil. A few years ago imported chiefly in grain and English manufactures. There are ruined fortifications, of course, the Fortress Vecchio to the east of the town and the Fortress Nuova to the northwest. Originally the town was enclosed by a wall, so the streets are very narrow and the stone houses four and five stories in height.

April and May are the ideal times in which to visit this interesting land. October and the first half of November are also very pleasant, but the summer is very hot and the winter is noted for sudden changes of temperature and heavy rains.

In the Odyssey one comes upon Corfu under the rule of Alcinous, the ants identifying it with the Phaeacian Island of Scheria.

The Corinthians in 734 B. C. established a colony here and the infant so named as to menaco mamma. In B. C. they fought a battle, the growing-up offspring called Corfiots being victorious. A shrewd colonist she did not share in the Persian war because she was waiting to know in her bid with the victory.

Indeed, it has been a case of war, war, with Corfu. In 229 B. C. the Romans took possession, but on the partition of the拜占庭 empire by the Crusaders in 1205 A. D. it fell to the share of the Venetians, who were replaced by the kings of Naples from 1267 to 1380. The Venetians took it again in the fourteenth century. The Turks made two tries for it 1387 and 1716, and the French occupied it from 1807 to 1814, while from 1815 to 1867 it formed with the other Ionian Islands a Heptanesean (seven-island) state under England's protection. In 1863 Gladstone was sent as extraordinary commissioner to consider the grievances of the people. In 1863 the English yielded to the demands of the islanders and consented to their incorporation in the kingdom of Greece.

Its Beautiful Gardens. Having been released from the Dogana (custom house) the visitor may stroll eastward to the royal palace (built by the English) and to the Spianata (esplanade) that is from the new fortifications to the old ones. Continuing south we come upon the strada marina, where the sea and the moon-

light are enjoyed to wonderful advantage.

And the gardens! In them flourish the olive, cypress, orange, lemon, fig, magnolia, palm, banana, eucalyptus, aloe and papyrus. But the olive is seen in greatest profusion in the center of the island, 4,000,000 trees being in the groves. April sees them in bloom, while the fruit ripens from December to March. Unfortunately Corfu does not produce olive oil owing to the primitive appliances for expressing and clearing it.

The inhabitants show more culture than is usual in Greece. This is said to be due to the Venetian and English domination of Corfu. Good roads lead to nearly all parts of the island.

Some seven miles south of Corfu is the Villa Achilleion, which, a few years ago, was to be seen providing one was armed with a permission from the Austrian consul. The most interesting part of its varied architecture is the colonnade to the east with its fine frescoes. The large park descends to the sea in terraces, the fishing village of Ierizo with the remains of a Roman villa being below. Among the works of art is a Dying Achilles by Herter and (in a small temple) a seated marble statue of Helen by the Danish sculptor Hesselius.

Drives to the westward are embowered with median and apricot trees and romantic cypresses.

Drive to the north and west of the city of Corfu (nearly crossing the long, narrow island) discloses red cliffs on the west coast honeycombed with caves. On top of the rocky height there's a wonderful view behind the city of Corfu and the picturesque east coast, white for to the northwest are the Othonian Islands, one of which is thought to be the Isle of Calypso. There is also a fantastically shaped rock resembling a sailing ship which was once thought to have been actually the vessel of Ulysses.

Real climbers are content with nothing less than an ascent of Mount Ida.

Salvatore, the island's highest peak. This view embraces the entire island, the Othonian Isles, the mainland of Greece to the east, the island of Cephalonia to the south and to the west the sea.

PUT IN HOLIDAYS WALKING

One Hundred and Forty Miles Traveled in Seven Days in Record of Minnesota Girl.

While many Minneapolitans rose from the dinner table and walked to the drug store two blocks away to settle their Christmas dinners, Miss Amelia Braathen went without a Christmas dinner and started out on a walk which lasted a week, says the Minneapolis Journal. She returned to Minneapolis New Year's eve after she had walked 140 miles and visited fourteen towns and eight counties. She wore out a pair of shoes, but came home satisfied with her Christmas vacation.

Miss Braathen was the guest of a sister in Minneapolis. She is teaching a rural school. She left Minneapolis for her work soon after returning from the walking trip.

"I have always liked to walk," Miss Braathen said. "My home is on a farm and there is a lot of room for walking out there. I often used to take walks of ten miles or more, but this was my first attempt at a really long trip.

"On the whole, the trip was not eventful. In all the towns through which I passed I was received most courteously. The last day of my trip I thought my shoes would give out before I reached home, so I bought a pair of rubbers to save the day.

"I traveled light, with my baggage in a small basket. The first few days I took it easy because I didn't know how fast I could go, but one day I made twenty-five miles. After that I took it easy again, because I was getting near home too fast."

Well Received.

Mahel—So you asked papa for my hand? Did he give you any encouragement?

Arthur—Well, no, but he gave me a drink and a cigar, so I had no kick coming.

At Frankfort they have been putting oil on the streets during the summer months since 1911, and the following from the Frankfort State Journal will be of interest: "Much misinformation has been given with reference to the cost of oiling as it would fall upon the individual property owner. The actual cost is too trifling to have caused as much talk as it has. It is estimated by the street department that even with the increased price of oil the cost of oiling the street in front of a fifty foot lot is not exceeding \$3.50. One gallon of oil will cover two square yards." The Courier, after talking with oil experts, believes this estimate is too low, especially for the first season.

Miss Aleta Dodds entertained in honor of David Oliver Tuesday evening from 8 to 11. Progressive conversation and a contest were enjoyed. At the close ice cream, cake, mints were served. A MEDICINE OF MERIT

Meeting With Great Success As It Fills a Long Felt Want.

There are many new articles being put on the market each year, but seldom has any new medicine gained the praise of the public as Lenolac has, this is due to the fact that Lenolac is a substitute for Calomel that really does the work in such a pleasant manner. It does not grip, sicken or savorate you and cause you to lose time from your work. The name, Lenolac, is very easy to remember as it is Calomel spelled back-wards. We don't mind advertising an article of merit and we believe any one will praise Lenolac who gives it a trial. We are advised that Helm & Ellison sell lots of Lenolac. Adv.

The only place where a man can booze without injury to any one but himself, is on an island in mid-ocean and where there are no other people within a thousand miles. He cannot do so in this country where there are sober, decent people who are forever to witness his silly, disgusting, inebriate actions. A drunk on man has no leniency upon our streets.

LEVEE WORK MAY START IN NEXT FEW DAYS.

Sept. Templeton and party were here from Nashville yesterday conferring with the local authorities as to final details of proposed city levee. Our understanding is that everything now is tip-top shape and work will most likely begin in a few days. In fact the railroad company is ready to begin now and they are to do the "lion's share" of it. Matters pertain to the right of way have been satisfactorily adjusted and all are co-operating in the work.

GOOD THINGS FOR THE TABLE.

It will always be one of the problems of the housewife to use the leftover meats in such a way that they seem not to be rehashed.

Lamb Souffle.—Put two cupfuls of cold lamb through the meat chopper, add a little minced

parsley and a cupful of white sauce made of cream, dash of onion juice, salt and pepper to taste with two slices of cooked bacon, minced, and one beaten egg yolk. Cook this over hot water until well heated. Cool and fold in the stiffly beaten whites of two eggs; turn into a buttered dish or custard cup and stand them in hot water in the oven to cook for half an hour. Serve at once with brown bread sandwiches which have been spread with butter and chopped green peppers.

Combination Salad.—Chop in a chipping bowl five fresh green peppers, the sweet ones. There should be a cupful of the pulp. Remove the pulp from a grapefruit, mix with the pepper, adding chopped blanched chestnuts which have been cooked until soft, then mashed. Make nests of curly lettuce, heap in the grapefruit, sprinkle with the peppers and stir the chestnuts into the mayonnaise dressing and heap on the salad. Serve ice cold.

Emergency Dessert.—Beat yolks of two eggs light, add a cupful of milk, one half a cupful of maple syrup and mix well. Slice bread in thin slices, dip in milk and egg and fry in hot fat. Spread each piece with preserves of pear or peaches or a section of pine-apple. Arrange on a dish and serve with the following sauce: Beat the whites of two eggs stiff, add a half cupful of sugar and the juice of two lemons. Heat two cupfuls of fruit juice and when hot stir in the whites of the eggs, stir but do not cook.

Eggs and Rice.—This is another wholesome dish easy to prepare. Take a half cupful of rice or less, brown in butter, add water and cook until tender, then stir in two or three eggs, a teaspoonful of Worcestershire sauce and a half cupful of cheese. Serve on toast.

PIPE ORGAN ASSURED.

CARNEGIE GIVES \$1,125.

The First Methodist church will have a pipe organ. The pipe organ committee has raised the necessary \$1,125 at home and the Andrew Carnegie Corporation has donated a like amount, making a fund of \$2,250, which is sufficient for purchasing the instrument desired.

The committee is now visiting nearby towns which have organs, with a view to inspecting and deciding what make of organ would best suit the needs of the Hickman church. We understand an order will be placed within the next ten days, which means the organ would be installed about September 1st, as these instruments are built after orders are received.

REV. CRAIN ACCEPTS CALL PASTOR BAPTIST CHURCH.

We are sure the citizens of Hickman will be glad to welcome to this city Rev. H. M. Crain and his family, of Milan, Tenn., the former accepting a call as pastor of the First Baptist church.

The First Baptist church has been without a pastor since last November when Rev. Hutchison resigned.

Resolutions, printed elsewhere in this issue, drawn by members of Rev. Crain's former congregation, at Milan, are certainly a splendid recommendation for the new pastor.

A WOMAN.

SHIE is a woman, but of spirit brave
To bear the load of girlhood's load
By dreams
The royal matron, not the yielding
slave
Or her like, is waiting that which seems
For that which is and as her lantern fail,
Smiling
The truth of love outwield her
all

She looks through life and with a balance
just
Wealth and want, and thine, beholding as
a picture
The face of either, the one or the other
dust
She is the true wife of a ruined
man
Proud, with grace, to bear the red and sweet
No poor man—she wears of her feet

CENTENARIAN DIES. OLDEST CITIZEN IN WEST KY.

William Noah Swindle, Fulton country's oldest citizen—it not the oldest man in Western Kentucky, died at his home in this city a few minutes past midnight yesterday morning. At bedtime he was apparently in as good health as he ever was, but shortly before 12 o'clock he woke his wife and complained of being cold. While she built a fire and prepared more cover, life went out.

"Grandpa" Swindle was born in Indiana, June 1, 1814. He died May 31, 1916, making him almost 102 years of age. While no physician was in attendance, Dr. Lou Naylor, who had attended him on former occasions, gave the cause of death as heart failure, as he was subject to this trouble.

He is survived by his wife, who must be close to 90 years, and one daughter, Mrs. Charles Little, with whom he made his home. Deceased had resided here about one year. Funeral services were held at the home yesterday afternoon and the body consigned to rest at the city cemetery.

Mr. Swindle, in view of his extreme age, was a unique character. Few men of half his age possessed equal vitality; he romped and played with children and seemed almost as active as they. He possessed a full suite of hair; read the finest print easily without glasses. Association with children pleased him and furnished him his greatest diversion.

During his active days, he followed ordinary labor for a livelihood, but possessed no health-wrecking habits. These two things may have contributed largely to his longevity. At any rate, he led what might be termed a "simple life."

Grandpa Swindle was a favorite with the children; they played with and learned to love the venerable old man. A most touching and sincere tribute of childish admiration was witnessed early yesterday morning when the news of the old man's death reached his little friends. Scarce-ly had his body been placed in the casket when the little ones began bringing bouquets of flowers, gathered and arranged in their own way, and placed upon it. Long before the noon hour, the casket was literally hidden beneath blossoms tenderly laid upon it by childish hands, seeming to refute the sad, yet accepted theory of the bard of Avon, "youth and age cannot dwell together."

"After the Ball," a six reel feature at the Crystal Tuesday, was a fascinating photoplay. Mr. and Mrs. Colvin sang the famous old song, which added much to the screen effect.

David Oliver, of Pulaski, Ills., will return home this week after attending school here this year.

LIST OF MEMBERSHIP.

We give below a list of the members of Elm Camp No. 3, Woodmen of the World, one of Hickman's secret orders and doubtless the largest camp in Western Kentucky. This order is in splendid financial condition, possessing assets worth around \$3,500. The Woodmen are an insurance order and has paid out thousands of dollars to widows and orphans of Fulton county. Dick Henry is council commander; J. C. Ellison, clerk; W. C. Reed, banker; a combination hard to beat. The order is now out of debt although it has been unfortunate in some of its former financial matters.

MAKE YOUR ROOF
AS PERMANENT AS
THE FOUNDATION

The foundation of your building is made of stone because nothing can affect stone. If your entire building were equally as durable, it would last forever.

J-M Asbestos Roofing is made from stone—Asbestos. We make this fireproof stone into roofing fabric by cementing the fibers together with Nature's everlasting water-proofer—Trinidad Lake Asphalt.

J-M Asbestos Roofing

will make your roof as permanent as your foundation.

It is the only ready roofing that never has to be painted. It hasn't any skin-coat of paint to be constantly renewed. That is why it is always the "cheapest-per-year" roofing in the end.

The first cost is the only cost. Write or call for samples of this Roofing and Booklet.

STATE CONVENTION
HARMONIOUS AFFAIR.

The Democratic State convention, which met in Lexington Wednesday, elected eight delegates-at-large, two delegates from each of the eleven congressional districts, the Democratic National convention at St. Louis, and instructed them to vote for the re-election of President Woodrow Wilson.

The delegates-at-large selected Governor A. O. Smith, United States Senator Ollie James, Senator J. C. W. Beck, former Governor James B. Clegg, J. N. Camden, Heribert Meyer, Judge Albie Young and Mayor Guy James Black.

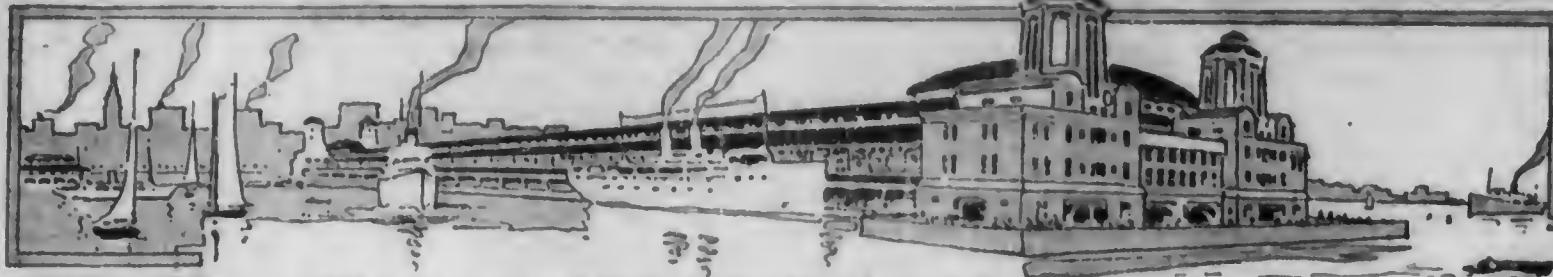

It was the original intention of the leader in control of the convention to elect 4 delegates-at-large, but on arrival of Senator Beck it was decided to elect 8, with a half vote each, no alternates.

The administration of President Wilson was highly praised in the resolutions adopted by the convention.

REPUBLICAN CONVENTION CHICAGO, JUNE 7th.

The sixteenth national convention of the Republican party, which meets in the Coliseum in Chicago on June 7th, will be one of the most interesting and exciting gatherings ever held by that party. Excitement will be intensified because of the uncertainty of the nominee. When the first ballot is taken there will be a dozen men voted for, any one of whom may subsequently be the fortunate one. It is conceded that all of these have a chance, some better than others.

Another thing that tends to add interest is the attitude of the Progressive party. The split of 1912 is vividly recalled. Will the two factions get together this year, or will there again be a third ticket?

NEW PARTY RULES.

One of the new party rules enacted by the Democratic convention is that all present committeemen who may become candidates for office, shall automatically vacate their place on committees. Another rule directs that precinct committeemen throughout the State shall be elected December 2 next and that their term shall be for four years. All members of committees must be residents of the precinct or district they represent.

J. B. KIMBLE KILLED BY RASE LACEY.

J. B. Kimble, of Hallowell, Ky., was shot to death by Rase Lacey, Thursday morning at 5:30 o'clock as a result of a quarrel between Mr. Kimble, George Lacey, and two sons, Rase and Calvin Lacey.

The affair occurred in Mr. Kimble's barn lot near his home.

It is stated that the four men were having a dispute over some partnership wheat that they were selling.

Mr. Kimble was shot 4 times. One shot taking effect in the face, under the left eye; one in the body, one in the left arm and one in the lower limb.

Physicians were immediately summoned and made every effort possible that medical aid could do to save his life but death occurred a few minutes later.

Calvin Lacey was seriously injured during the quarrel and was carried to Clinton for medical aid.

George Lacey and Rase Lacey were arrested and placed in jail at Clinton.

Mr. Kimble was one of the wealthiest and most prominent farmers of Hickman county and owing to the prominence of the Kimble family the affair is one of the most deplorable affairs that has ever occurred in that community.

The deceased is survived by a wife and five children, also two brothers, George and Joe Kimble, all of that community.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL.

Starts Your Liver Without Making You Sick And Can Not Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives you better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give you relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine, no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and unseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. Adv.

BOND ISSUE CARRIES AT TUNE OF 87 TO 6.

Thursday's school bond election ended with a vote of 87 for and 6 against the bond issue.

The result means school bonds to the extent of \$7000 will be issued by the district for the purpose of building a new four room, brick school building, to be located in the Carnegie library grounds. This building will be used for high school purposes. As heretofore stated, the bond was free to face with a serious proposition; that of providing more school room. For the past two years, on account of increased attendance, all rooms were over-crowded, and in addition to this the basement of the library was being used for primary grades. In 1911, Gen. H. A. Tyler came to our rescue and built a four room ward school in West Hickman, which he presented to the town. Now this doesn't take care of the overflow.

The voting of bonds for a new building is the same and sensible way out of the present difficulty. The tax will be small and all children will be able to secure a full day's work during the school term.

The reason a girl knows that you can't see the paint on her face is because she thinks it is perfectly awful the way other girls use paint.

J. B. KIMBLE KILLED BY RASE LACEY.

J. B. Kimble, of Hardin, Ky., was shot to death by Rase Lacey, Thursday morning at 5:30 o'clock as a result of a quarrel between Mr. Kimble, George Lacey, and two sons, Rase and Calvin Lacey.

The affair occurred in Mr. Kimble's barn lot near his home. It is stated that the four men were having a dispute over some partnership wheat that they were selling.

Mr. Kimble was shot 4 times. One shot taking effect in the face, under the left eye; one in the body, one in the left arm and one in the lower limb.

Physicians were immediately summoned and made every effort possible that medical aid could do to save his life but death occurred a few minutes later.

Calvin Lacey was seriously injured during the quarrel and was carried to Clinton for medical aid.

George Lacey and Rase Lacey were arrested and placed in jail at Clinton.

Mr. Kimble was one of the wealthiest and most prominent farmers of Hickman county and owing to the prominence of the Kimble family the affair is one of the most deplorable affairs that has ever occurred in that community.

The deceased is survived by a wife and five children, also two brothers, George and Joe Kimble, all of that community.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL.

Starts Your Liver Without Making You Sick And Can Not Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives you better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 10 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, pure vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine, no bitterness, sick headache, acid stomach or constipated bowels. It doesn't grip or cause inconvenience all the next day like violent emollient. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. Adv.

BOND ISSUE CARRIES AT TUNE OF 87 TO 6.

Thursday's school bond election ended with a vote of 87 for and 6 against the bond issue.

The result means school bonds to the extent of \$7000 will be issued by this district for the purpose of building a new four room, brick school building, to be located in the Carnegie library grounds. This building will be used for high school purposes. As heretofore stated, the board was faced to face with a serious proposition that of providing more school room. For the past two years, on account of increased attendance, all rooms were overcrowded, and in addition to this the basement of the library was being used for primary grades. In 1911, Gen. H. A. Tyler came to our rescue and built a four room ward school in West Hickman, which he presented to the town. Now this doesn't take care of the overflow.

The voting of bonds for a new building is the same and sensible way out of the present difficulty. The tax will be small and all children will be able to secure a full day's work during the school term.

Mayor J. A. Cable, S. D. Wooley, W. C. Farris and A. E. Kirkland, four live wires and boosters of Union City, were here yesterday to invite our people over to their big Independence Day celebration. It will be remembered that year before last our Union City neighbors pulled off, although they had their 4th well advertised, in our favor. Here's a chance for Hickman folks to show Union City our appreciation to their former courtesy by going over to enjoy a day of fun and frolic with them. Mayor Cable asks the Courier to extend a cordial invitation to all its readers to be Union City's guests July 4th, and we are sure you will enjoy the day.

WHEN THE SUMMONS COMES.

SEEKING out when thy summons comes to me to die,
I'll go to the realms of shade,
where every soul doth lie
His chamber in the silent halls of death,
There we sit, like the quarry slaves
at night.
Summoned to his judgment, but un-
taught and untaught
By no uplifting trust approach
they graves
take one who wears the diadem of
his cause
About him and go down to pleasant dreams.

STOCK COMPANY BUILDING LARGE FERRY BOAT.

In the local dock, a crew of men are engaged in building cabin and upper structure on the hull of a new ferry boat, which is to be used in the 1½ hour run to town service.

The boat will be owned and operated by a \$25,000 corporation, composed of Jim McFarland, Ed and Alex Barnes, Jim Bryant, Joe Polkham, Col. G. L. Walker, W. A. Dodds, Ernest Johnson, S. L. Dodds, C. T. Callahan, Ben White, Jim Pickett, C. G. Schleicher and Holme Henderson. No one person will be permitted to own more than forty shares of stock.

The boat is to be 80x20 feet, large enough to carry a half dozen wagons at one time and with commodious passenger quarters. A coal oil engine of 30 h. p. will furnish the power. Mr. Pickett, who is in charge of the work, hopes to have the boat in commission in about 30 days. She will be the finest thing in the way of a ferry ever used in the local trade.

The Social Embroidery Club held an enjoyable meeting with Mrs. W. E. Caldwell on Monday afternoon. Sewing and social conversation were enjoyed for an hour after which two interesting papers were read by Mrs. Phoebe and Mrs. Posey. A contest that afforded great amusement formed a delightful part of the entertainment, Mrs. Laird being the lucky contestant. In addition to the club members several invited guests were present. At the close of the afternoon cream and cake were served. The club meets with Mrs. E. Creason on Monday, June 5th.

Masons from all parts of the State will celebrate a Home Coming in connection with the annual St. John's Day picnic at Fountain Park, in Louisville, June 23-24. A large delegation of Masons from every county in Kentucky is expected to attend. N. G. Burkett left today for Oklahoma where he expects to go in the wholesale business.

SUCCUMES TO TYPHOID.

Thomas, the little ten year old son of Mrs. Charlie Brown, died at his home in this city Tuesday of typhoid fever. Burial occurred at Brownsville Wednesday afternoon.

The little fellow came here with his parents from Johnsonville, Tenn., about a year ago. His father died in Hickman a few months ago from a shotgun received at Geo. Evin's store in the lower bottom. His mother and four other children survive.

A USEFUL INDICATOR.

An "In" and "out" indicator of a particularly useful type is shown in the accompanying sketch. For making it, for the foundation a piece of thin wood measuring 7 inches in length and $3\frac{1}{2}$ inches in width will be required.

The front of the wood is covered with green watered silk, upon the lower half of which the word "In" has been worked with crimson silk.

To cover the board, turn the material over at the edges and fasten it down at the back with a strong adhesive. Sewed on to the center of the board is a piece of stiff cardboard, covered on both sides with silk and edged with a crimson silk cord carried into a loop in the center in front. On the material covering the upper side of this card the word "out" is embroidered in crimson silk. This card is fastened in place by a tab of silk left over at the upper edges. The cross in diagram B indicates this. It should be sewn in place prior to covering the wood.

Four small "corners" made of kid are glued upon the upper part of the board, and under these corners pieces of paper cut to fit are slipped. Upon the left hand side a pencil is attached, and for suspending the indicator from nails in the wall two small rings are sewn on at the top.

To indicate "In" the flap in the center is fastened over the tablet for use.

Neat "In" and "Out" Indicator.

To indicate "out" the flap in the center is fastened over the tablet for use.

Second. That since he has been our pastor he has given his undivided time and undivided and untiring energy in building up the cause of Christ at this place. As pastor he has not only labored in the pulpit and among the members, but in the Sabbath school he has been a willing worker as a teacher and in the Ladies Aid and Missionary Societies he has been a willing co-worker.

Third. That we gladly record our thanks to Bro. Cram and his wife and children, to any church and community where ever he may be called and.

Fourth. That we pray God's blessing upon him and them wherever they may go, and that He will give him an abundant harvest for his labor of love.

Fifth. Be it further resolved that this resolution be spread upon the minutes of our church conference, that a copy be given Brother Cram, and a copy be sent to the Baptist and Reformed pastor for publication.

Signed,

W. D. Mills, Clerk.
